Career Technical Education is a state-wide program designed to ensure students are college and career ready when they graduate from high school. TPHS offers eight 2-3 year pathways that build transferable professional skills through project-based learning aligned with industry standards and core content. Courses are sequenced so that students build on prior knowledge and work toward advanced coursework in their capstone class. Our pathways are designed with industry input, and focus on rigorous, relevant and real-world learning. By integrating innovative instruction, vertically aligned courses, and transferable professional skills, our pathway completors leave high school ready for their future in college and beyond.
