The San Dieguito Union High School District is committed to providing students with the necessary instructional resources to aid in their transition to distance learning while schools are closed. Should your child need a device, please contact your school site administrative teams at your earliest convenience.

To ensure student safety, privacy, and equitable access to materials, the District will be using the Google Suite for all distance learning opportunities. Teachers and students will communicate safely by using only their district Google accounts. Teachers can safely monitor, log, and control access video conferencing while using the Google Suite provided that students log in to all platforms via their district-provided email address. Students should plan to regularly check their district email address and established Google Classrooms for communication from teachers. Parents should also plan to monitor messages from school which will be sent to their email address on file in Aeries for communication from teachers.

On Monday, March 23, 2020, SDUHSD will begin distance learning:

1. Please be patient with your children as they learn how to access distance learning and adjust to the change in their routines.

2. Please be patient with our teachers, administration, staff and technology. The teachers are trying to do something that they have never done before and with a very short amount of lead time.

4. Establish routines to include school time, physical movement and play time. The social-emotional wellness of our students, staff, and community is our highest priority.

5. If you are having a technology issue, please visit my.sduhsd.net for helpful information and general questions.

6. Students will need to access their SDUHSD district-provided Google accounts to participate in distance learning. **This is the same username and password that they are accustomed to using for Chromebooks and Google Classroom.**
   Student login names are:
   last name + first initial + last 4 digits of permanent ID @my.sduhsd.net
   For example: smithj1234@my.sduhsd.net

   To reset a password, visit my.sduhsd.net.

My.sduhsd.net
Student digital resources are posted here, including Enrichment Activities. It includes a link, "Internet Access for Families", to a list of free or reduced-cost internet access.

Google "Hangouts Meet"
Some teachers may hold virtual meetings with students using Google Hangouts Meet. Students will use their district logins, not personal accounts with Hangouts Meet, to ensure a safe virtual environment. Links to the virtual meeting will be shared by the teacher through Google Classroom, email, website, or other means. Teachers will let students know where they will be sharing this information with students.
