

ASB (Associated Student Body)

Students who select ASB as a course must possess leadership skills that inspire them to make a difference on campus. This includes (but is not limited to) brainstorming, planning and implementing new and yearly events, utilizing problem solving strategies when necessary, boosting morale and spirit of student culture on campus, and willingness to help with various events and tasks on campus. Additionally, students are required to work many before and after-school hours to earn a grade in this class. Students are either appointed after an interview or elected by student vote to join ASB.
