

DRAWING & DESIGN

No prerequisites

(Grades 9-12)

Students in this course will...

- Discover basic skills for creating 2-D Art!
- Express themselves using a variety of 2-dimensional tools & materials!
- Explore various techniques to make their art more interesting!
- Improve creative problem-solving skills!
- Learn about other artists!

Course Description

This is an introductory level studio art course that will give students an opportunity to develop their drawing skills and learn all about fundamental design issues in the 2-Dimensional arts. Students will explore a variety of drawing and 2D materials, tools, and techniques. The creation of artwork will be emphasized, but art history and criticism will also be addressed. This course will provide a solid foundation for any further coursework in any other visual arts course that we offer.

Workload Expectations

This is a studio based course meaning that most work will be completed during class time and will be project based. This is not a homework intensive course. Homework might consist of sketching, finishing projects, if extra time is needed and any class time is missed, and/or bringing in objects for observational drawing.
